Craft Foam Angel. Use the pattern to precut the angel out of white craft foam. Use a digital camera the week before to take each Cubbies picture, and cut their face out for the angel's face. Let Cubbies use Q-Tips to decorate the angel with gold acrylic craft paint (dries fast), glitter glue and sequins. Help Cubbies glue their face on the angel. If you prefer, a picture brought from home, or a clip art angel face could be used. The angel could be used for a tree ornament if you punch a hole in the top and add plastic lacing or gold thread.
